THE BEGINNING OF OUR JOURNEY

NATURE PLAYGROUNDS

are leaders in design, supply and construction of nature based playgrounds for early learning centres, schools, public spaces and private use.

Back in 2014 Stewart Winsor was contacted by an external playground designer to see if he would be interested in constructing some playground designs that this designer had put together. Stewart was currently operating a landscape company at the time and the concept of nature play was in the very early stages of development. As a father with several children, Stewart was committed to exploring this partnership further.

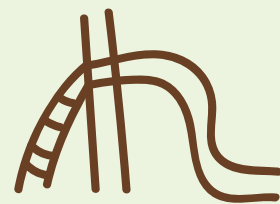

I KNOW HOW IMPORTANT IT IS FOR CHILDREN THESE DAYS TO HAVE BETTER ACCESS TO GOOD PLAYGROUND FACILITIES...

— STEWART WINSOR

After the completion of our first few playgrounds it was very clear that there was a much needed supply facility for this market as there was currently nothing available. This is where Nature Playgrounds was born. It was originally developed as a supply only business but very quickly expanded through strong demand for construction works also.

This has lead us to where we are today, five years later and supplying our products and construction service to all corners of the country. It is an industry that we are very passionate about, focused on constantly improving our exciting range of products and providing our youth with non-conventional, safe and nature focused play spaces.

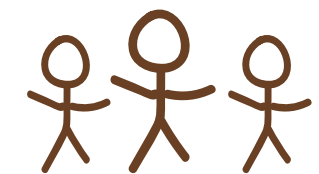

MANUFACTURE & SUPPLY ONLY

NATURE PLAYGROUNDS IS NOW A LEADER IN DESIGN, SUPPLY AND CONSTRUCTION OF NATURE BASED PLAYGROUNDS FOR EARLY LEARNING CENTRES, SCHOOLS, PUBLIC SPACES AND PRIVATE USE.

Our product range has quickly expanded from the basic logs and steppers to custom forts, musical instruments, hand water pumps, rope climbing courses and playground games.

Our unique supply only service enables our clients to order individual components from a wide range of nature based playground equipment. This has allowed us to expand our service to all states of Australia with great success.
